Program Overview

This initiative, in collaboration with APSCHE aims to build a job-ready talent pool in the various demanding technologies.

This is a 4 months virtual internship, an experiential learning program designed to make the students employable. This program helps students build their profile aligned to a job role through hands-on project-based learning under the guidance of industry mentors. It helps students acquire technical and professional competencies while working on real-world challenges and creating innovative solutions. The program encourages students to think critically and creatively, and it is designed to provide industry-level training at the college level.

- Live Instructor-led Training
- Self Paced Learning
- Project Development
- Productivity Tools
- Career Development
- Mentoring

Program Structure

This Program contains the following modules

Technical Training & Self Learning

60 Hrs. of live hands-on technical training and **40 Hrs.** of self-learning course.

+

Project Development

120 Hrs. of project development along with AMA sessions to clear the queries.

+

Interview Preparation

10 Hrs. of interview preparation to build the confidence

+

Career Development Course

10 Hrs. Career development course to guide the right path
